Revolutionizing Workplace Safety and Efficiency

A COMPREHENSIVE SOLUTION FOR GAS DETECTION FLEET MANAGEMENT

- Streamline the oversight of all of your BW and RAE portable detectors helping you ensure they are functioning optimally and in compliance with industry.

- The intuitive design of Safety Suite ensures that even non-technical users can easily navigate though the system. This reduces training time and increases efficient of your safety management operations.

- Minimize the time spent on fleet management and safety monitoring by accessing centralized data in dashboards and reports. Automate maintenance tasks, such as scheduled email reports, gas-detector firmware updates, and data downloads.)

SIMPLIFIED OPERATIONS THROUGH AUTOMATION, NOTIFICATIONS, AND REPORTING

Honeywell Safety Suite Deluxe is an integrated software system that offers you the ability to enhance workplace safety and operational efficiency. By providing a comprehensive platform for device management, safety monitoring, and compliance tracking, Safety Suite Deluxe empowers organizations to create safer, smarter, and more efficient work environments.

ENHANCED DEVICE MANAGEMENT

Safety Suite Deluxe offers robust device management features that simplify the maintenance and monitoring of safety equipment. By automating routine tasks such as firmware updates and data downloads, the software frees up valuable time for your team to focus on critical safety operations. Consolidated data dashboards provide a holistic view of device status, enabling proactive management and timely intervention.

OPERATIONAL EFFICIENCY

Efficiency is at the heart of Safety Suite Deluxe. The software helps to reduce the administrative burden of fleet management and safety monitoring by automating repetitive tasks and centralizing data access. Scheduled email reports keep your team informed without manual effort, while real-time data dashboards offer instant insights into device performance and safety metrics. This streamlined approach not only helps to save time but also enhances decision-making and operational effectiveness.

Honeywell

INCREASE PRODUCTIVITY
AND SIMPLIFY COMPLIANCE

IMPROVED COMPLIANCE

Staying compliant with safety regulations is crucial for any organization. Safety Suite Deluxe assists you to ensure that all devices connected to are up-to-date with the latest standards and protocols, reducing the risk of non-compliance and associated penalties. The system's detailed reporting and audit trails provide clear documentation of compliance efforts, making it easier to demonstrate adherence to regulatory requirements.

ALSO AVAILABLE IN LITE AND BASIC

Safety Suite offers Basic and Lite versions in addition to the Deluxe package. The Basic option provides essential device configuration and firmware updates, helping you to ensure that your devices operate smoothly and stay current with the latest technology. For those requiring a bit more, the Lite version includes everything in the Basic package plus bump test and calibration certificates, to allow you the ability to keep your equipment in top-notch condition. This flexibility allows you to choose the level of service that best fits your operational requirements without paying for unnecessary features.

JOIN THE REVOLUTION

Honeywell Safety Suite Deluxe is more than just a software system; it's a transformative approach to workplace safety and efficiency. By integrating advanced device management, operational efficiency, and compliance tracking into one platform, Safety Suite Deluxe empowers organizations to elevate their safety standards and operational performance.
