

Honeywell is proud to offer Trainings for Elster gas measurement devices and gas processing

Honeywell is committed to improving the competence and confidence of our customers and partners by providing high quality trainings

The Elster team provide trainings on the measurement of natural gas, biogas and H2, in gas grids. For billing or control purposes.

As a standard we offer

- Training on gas measurement in transport and distribution grids
- Device related trainings as basic, advanced and remote upskill sessions

We train on operating and maintaining ultrasonic flow meters, gas analyzers, flow computer, volume converters and condition-based monitoring software MIQ.

Details about the Honeywell-Elster trainings, scheduled in Germany, can be found in this calendar.

Please refer to the separate training brochure for a comprehensive overview of Honeywell Training solutions.

To reserve training, please email <u>elster.customer.trainings@honeywell.com</u>.
