

## Honeywell Product Notification

HONEYWELL SAFETY AND PRODUCTIVITY SOLUTIONS

**Date:** May 19, 2023  
**To:** Honeywell Fall Protection PPE Customers  
**Subject:** Quality Alert re - missing Stitching on the webbing around the leg of certain harnesses and belts.

Dear Honeywell Fall Protection Customer,

As a Leader in Safety, Honeywell attaches the utmost importance to providing reliable PPE for workers at height and has always made it a priority to produce and supply high quality products that improve user safety.

We have been informed that a quality problem has been detected on a product 1003438 RM HARNESS S/M manufactured on 3rd March 2020, manufacturing batch number **21143166/003**. The issue was missing one stitching on the webbing around the leg.

Potentially all products (listed below) with the manufacturing process design which were manufactured between **02<sup>nd</sup> March 2020 and 20<sup>th</sup> September 2022** could be affected by this issue:

# Honeywell

**Immediate action is required.** Please check products listed above, and if the manufacturing date is between 02<sup>nd</sup> March 2020 and 20<sup>th</sup> September 2022 including, please perform following inspection (guidance on identifying the applicable products found in Addendum A to this Notice)\*:

- Put the product on flat surface (table)
- Fix all the buckles
- Inspect visually all stitching
- Look for any missing stitching\*

**In the event of non-compliance for Notified Missing Stitching, remove the product from any use / do not sell the product and contact your Honeywell Customer Service at:**

Customer from Europe, Middle East and Africa (EMEA) please contact Customer Service at:

Phone number: +33 2 48 52 40 42

Email address: [techniserv.hsp@honeywell.com](mailto:techniserv.hsp@honeywell.com)

Customer from China, please contact Customer Service at:

Phone number: + 86 13962525403

Email address: [Alina.liang@honeywell.com](mailto:Alina.liang@honeywell.com)

In case there is no “Missing Stitching” then follow the product instruction of use/maintenance.

If you are a distributor of the product, please forward this Quality Alert to any of your customer(s) who have purchased the impacted products manufactured between 02<sup>nd</sup> March 2020 and 20<sup>th</sup> September 2022.

As generally recommended by applicable PPE regulations and indicated in the notice relating to the product (Ref. doc. 90004212 & 90004210), we are confident that those potentially involved harnesses have been already undergone the mandatory annual inspection and that the possibly missing stitching should have been detected during this check.

The notice mentions that:

1. All the harnesses must be inspected before every usage to confirm that it is suitable for use and that it operates correctly.
2. A competent person must perform regular inspection of the harness, to confirm that it is in good condition and suitable for use. Such inspection is carried out at least once a year or more frequently, depending on the application and the conditions of use

We apologize for any inconvenience this Quality Alert may cause to your business, but the safety of our users is our top priority.

Honeywell requests that you respond within the next 90 days in order to provide timely replacement of non-conforming products.

Thanking you in advance for your cooperation, please accept Dear Customer our sincere greetings.

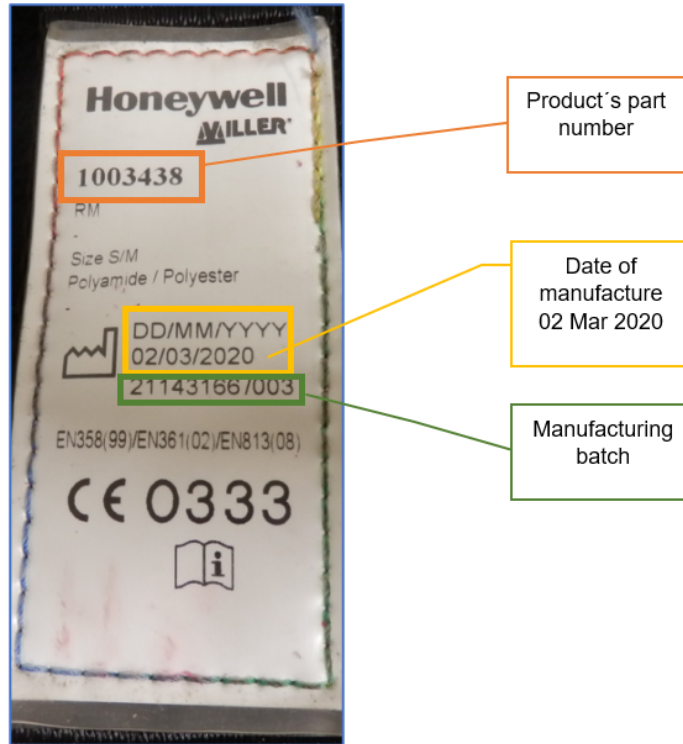

Fall protection team

Honeywell
