

TECHNICAL BULLETIN #126

SUBJECT: Batteries

DATE: December 19, 2005

PRODUCTS AFFECTED: Survivair® Products that Require Batteries,
Excluding APR & PAPR Products

This Technical Bulletin provides information regarding the proper batteries to be used in Survivair products. This Technical Bulletin excludes APR and PAPR products. With an ever-increasing amount of electronic equipment used as integral components of self-contained breathing apparatus (SCBA) and supplied air respirators (SAR) it has become necessary to clarify which batteries can be used to maintain the intrinsic safety approvals of these specific components.
