Honeywell

BW NEXT GENERATION MULTI-GAS PLATFORM COMPARISON GUIDE

Helping to keep you safer by simplifying the transition from single-gas detectors to multi-gas detectors, built to improve protection for workers.

Honeywell is making it even easier to protect yourself, your workers and ensure compliance with site requirements. The advanced technology of Honeywell's portable gas detection equips workers with improved protection from the gas hazards they face most often and is engineered for dangerous environments, wherever workers must be protected from a variety of threats at all times.
