6. Light weight EZ flips

Honeywell

Weight

Reduced weight and height for improved ergonomics and to reduce fatigue.

Clean

Easy to remove inner parts for cleaning.

Strength

Proprietary shell material provides outstanding heat protection with 39% more resistance to impact penetration than conventional fiberglass material.

Durability

Precision-engineered with rugged components that stand up to the test of time.

Comfort

Easy-to-adjust padded headband and suspension components ensure a customized fit and low ride.

Innovation

Unique design and materials provide excellent protection and functionality.
