SERVICE MADE SIMPLE

FIND THE RIGHT SUPPORT SOLUTION WITH HONEYWELL

Service Contracts

Honeywell offers three Service Contracts that provide a predictable Total Cost of Ownership by delivering value with defined service levels during the length of the contract. We have flexible upgrade options that provide the right contact service level for every customer. **Total Care** is our flagship offer that delivers peace of mind, knowing all of your service needs are met. This lifecycle management service is tailored to meet your needs. With an **Enhanced Service Contract**, users receive comprehensive coverage for their devices, including preventive maintenance, calibration and repairs. **Service Made Simple Lite** is a repair service that supports your AreaRAE's hardware and firmware over a 2-year period.

On Demand Repair

For customers without a Service Contract, Honeywell offers repair service at your convenience. With this service, our technicians will repair damaged circuitry and displays, calibrate and update firmware for a single fee.

Rental Services

The AreaRAE is available for rent through the Honeywell Rental Program, providing businesses with the flexibility to utilize its advanced capabilities without the commitment of ownership. Additionally, Rapid Deployment Kits (RDks) and essential accessories such as docking stations, batteries, and sensors can be rented to support your operational needs.
