

HONEYWELL

SERVICE MADE SIMPLE

GOLD SERVICE

Honeywell's Service Made Simple Gold Service contract is designed to extend the useful life of our lifesaving instruments.

Honeywell's Gold Contract will expedite the repair and return damaged devices.

Get the most out of your Honeywell detectors

The **Gold Service Contract** is a repair service plan that supports the instrument's hardware and firmware for a period of 4-years.

Gold Service eliminates unpredictable and expensive out of warranty repairs by repairing damage that results from an accidental drop or other event thus extending the useful life of the instrument.

Service Made Simple saves time and makes it easy to get your device repaired. Simply open an RMA on our portal fill in the information and print the RMA and address label. Then arrange for delivery to Honeywell using your preferred carrier.
