

PARTS SERVICES

Honeywell Intelligrated offers services that make it easy to keep a well-stocked parts inventory for mission-critical material handling systems.

The company offers standard, premium and materials management framework services to help operations plan and manage on-site inventories with the right parts to keep systems running smoothly and avoid unplanned outages. ▶

STANDARD SERVICES

Recommended Spare Parts List (RSPL)

Details stock recommendation of part types and quantities for emergency replacement and preventive maintenance to minimize downtime.

Inventory Analysis

Review current inventory against the recommended spare parts list to identify missing critical spares and advise on safety stock levels and reorder points.

Annual Parts Budget Review

Client receives customized budgeting assistance, based on condition and age of material handling systems, to help estimate annual parts budget.

Live Parts Assistance

Live assistance from 8 a.m. to 8 p.m. ET, Monday through Friday, plus 24X7 emergency support from parts specialists with in-depth system knowledge. Traditional parts ordering (via phone/email) one-time purchase or stock replenishment.

OnTimeParts.com

User-friendly web store provides availability information and complete order histories for easy access to the right parts for each system.

PREMIUM SERVICES

Parts Cage Assessment

Honeywell Intelligrated reviews current on-hand inventory, applies parts cage best practices, quotes critical missing spare parts, and makes recommendations for parts cage operational improvements.

Parts Put-Away

Knowledgeable parts specialists visit customer sites to establish the parts cage with recommended spares for Honeywell Intelligrated material handling equipment and guide staff on part inventory best practices.

PunchOut Purchasing Application Integration

Honeywell Intelligrated enables direct connection between a client's ERP or purchasing applications and OnTimeParts.com to enable smart purchasing decisions, automatic submission of purchase orders and invoicing.

MATERIALS MANAGEMENT FRAMEWORK

Parts Consignment

Provides users with a flexible alternative to the high costs of purchasing and maintaining a spare parts inventory on their own. Honeywell Intelligrated owns the spare parts inventory and guarantees their availability so that users don't need to make capital outlays for spares, and it ensures users have the right parts on hand when needed.

Three-Year Virtual Parts Assessment

(Consumption/Data Analytics/Parts Planning) Review current inventory against the recommended spare parts list to identify missing critical spares and advise on safety stock levels and reorder points. Client receives customized budgeting assistance, based on condition and age of material handling systems, to help estimate annual parts budget. (Honeywell Intelligrated reviews current on-hand inventory, applies parts cage best practices, quotes critical missing spare parts, and makes recommendations for parts cage operational improvements.)

Parts All-In

This is an option of the Assurance 360 program. Clients can choose to pay a one-time fee based on estimated usage and historical data for all the parts they will need for the specified amount of time per the contract.
