

ELECTRO 584

APPLICATION:

- Power maintenance, repair and transmission
- Electrical equipment manufacturing
- Electric Vehicle manufacturing and maintenance
- Utilities and wind energy
- Telecom
- Car repair shops
- Fire rescue services

QUALITIES AND ADVANTAGES:

- Gloves meet the EN 60903 and IEC 60903 standards
- Electrical capabilities for Class 0
- Meet IEC 61482-1-2 for thermal hazards of an electric arc
- Arc Flash Protection Class 2
- Great dexterity and flexibility
- Silicone Free
- Textured surface for improved grip
- Made in Germany

FEATURES:

- Delivery in UV-resistant bags

ATTRIBUTE	DESCRIPTION / VALUES
Article No.	584
Name	Electro 584
Material	Natural latex (NR)
Description	Long cuff Textured
Length (mm)	360 mm ± 15mm
Total thickness (mm)	1.2mm ± 0.1 mm
Colour	Red
Size	7-11
According to the guideline 89/686/EWG	PPE Category III EN60903 
Class	0
Category	A, Z, C (acids, ozone, low temperature resistance)
Arc flash protection	APC 2 / Class 2: 7 kA/30 cm
Test voltage (kV) AC	5
Max. working AC voltage	1000 V
Max. working DC voltage	1500 V
