

**Maryland State Law: Md. Environment Code § 6-1603**

Section 6-1603 of the Maryland Environment Code (the “Maryland Law”) requires any person selling firefighting personal protective equipment (PPE) to provide written notice to the purchaser at the time of the sale if the firefighting PPE contains PFAS chemicals.

Maryland law defines PPE as “items designed, intended, or marketed to be worn by firefighting personnel in the performance of their fire and rescue activities, including jackets, pants, shoes, gloves, helmets, and respiratory equipment.”

Honeywell Safety Products is providing the following information for Honeywell First Responder Products (HFRP) firefighting PPE in compliance with the Maryland Law.

Based on information provided by our suppliers, PFAS chemicals are contained in certain component parts of the HFRP products listed in Annex A. These component parts are technical fabrics that use PFAS chemicals to provide water repellency and to meet performance standards for firefighting PPE.

Under the Maryland Law, the seller and the purchaser of the firefighting PPE must retain the written notice for at least three years after the date of the sale.

This memorandum shall serve as Honeywell Safety Products’ written notice for purposes of complying with the Maryland Law.
