

MOBILITY EDGE™ MEANS BUSINESS

When you're invested in mobility solutions, you need a durable, stable and secure platform to maximize and protect that investment. In a complex ever-changing world, you need to stay on top of emerging technology. Stay ahead of the curve. Ahead of the competition. Today and in the years to come.

SHAPED FOR THE FUTURE

By definition, the Mobility Edge platform strengthens security, accelerates deployments, extends the life of your solution, and optimizes business performance. By design, Mobility Edge is built to enable seamless evolution, allowing enterprises to realize even greater efficiency, simplicity and opportunities to innovate and grow with confidence.

UNLEASH YOUR POWER AND POTENTIAL

The promise of Mobility Edge continues to deliver, providing better value, lowering risk, and increasing ROI. Mobility Edge enables seamless evolution, always looking forward and helping to extend the value of your investment. Recent and upcoming enhancements include:

- **Standardized API/SDKs:** Standardization reduces integration efforts while improving functionality across applications and devices
- **Standardized Configuration:** Configure once, apply universally across device types
- **Software Management:** Visibility and management of software licenses across devices. Know what licenses are needed when, more easily manage and deploy
- **Data & Insight Offerings:** UEM Connect and Operational Intelligence provide data and insights to improve operations
- **OS Guarantee:** Guaranteed OS version compatibly without gaps provides best available security and longer lifecycle
- **New Devices & Further OS Compatibility:** New devices provide further OS versions
- **Common Accessories:** Universal Dock provides accessory forward compatibility between legacy and new devices
