

A woman's profile is shown in a futuristic, digital environment. The background is a light blue and white gradient with a network of glowing blue nodes and lines. The woman's face is partially obscured by a semi-transparent digital overlay consisting of various colored circles (orange, red, green, blue) and lines, suggesting a complex system or data flow. The overall aesthetic is clean, modern, and tech-oriented.

SOTI ONE

ONE PLATFORM CONNECTING EVERYTHING

HONEYWELL DEVICE MANAGEMENT WITH THE SOTI ONE PLATFORM

Business mobility is critical to the success of your company. More and more of your workers depend on Honeywell Mobile Computers and apps to do their jobs. But the scale and complexity of your mobility deployment is making security and management more challenging than ever. A challenge that is only going to increase as the Internet of Things (IoT) takes off. How do you get the right devices into the hands of the right workers and keep them up and running at peak efficiency? How do you simplify app development and deployment while integrating with critical backend systems?

Honeywell

WHAT THE SOTI ONE PLATFORM CAN DO FOR YOUR BUSINESS

The era of desktop computing has ended. In its place, mobile technology and IoT devices are taking over, streamlining business operations. Companies using Honeywell Mobile Computers need solutions that support their mobility strategy now more than ever - they need the SOTI ONE Platform.

SOTI SNAP

SOTI Snap is a cross-platform mobile app development solution built for businesses. It empowers organizations to build the mobile apps they need quickly and cost-efficiently, without the need for specialized resources. Anyone can build an app by dragging and dropping the widgets they need so businesses can prototype, iterate and deploy apps in minutes or hours, not days or weeks. SOTI Snap takes the cost, complexity and coding out of mobile app development for your business.

SOTI MOBICONTROL

SOTI MobiControl makes Enterprise Mobility Management (EMM) easier than ever before. It empowers companies to securely manage any device or endpoint with any form factor and any operating system throughout their entire lifecycle; from deployment to retirement. It controls all aspects of business mobility, from tracking physical assets to managing apps and content, all while keeping devices and data, safe and secure.

SOTI ASSIST

SOTI Assist is the industry's first diagnostic help desk solution that is 'purpose-built' and designed for the mobile-first era. It features SOTI's award-winning remote control technology, making it easy and efficient for technicians to analyze, troubleshoot and resolve mobile device and app issues from anywhere, at anytime. SOTI Assist keeps your workers working and your help desk staff stress-free and productive.

SOTI INSIGHT

SOTI Insight is a business intelligence solution that delivers out-of-the-box analytics on app, data, network and location usage, and operations. SOTI Insight makes it easy for companies to gain insights into the performance of their mobility deployments.

SOTI CONNECT

SOTI Connect is an IoT solution built for business that provides complete lifecycle management of IoT devices within an organization. Its highly flexible, data-driven architecture means that new IoT devices can be quickly supported and managed, reducing the time-to-market for IoT initiatives. This first release of SOTI Connect focuses on the management and support of specialized printers used for business-critical tasks.

SOTI IDENTITY

SOTI Identity enables simple and secure access to the SOTI ONE Platform suite of solutions. It provides centralized user authentication, single sign-on (SSO) and role management, empowering organizations to create seamless, integrated mobility management workflows.

SOTI CENTRAL

SOTI Central is an online community for SOTI partners and customers, and makes it easy for customers to connect, communicate and collaborate with product experts and other solutions providers, to get the most out of their mobile and IoT deployments.

SOTI ONE SIMPLIFIES YOUR BUSINESS MOBILITY

The **SOTI ONE Platform** intuitively integrates all your Enterprise Mobility Management (EMM) needs into one unique, easy-to-use platform. It will help reduce the cost, complexity and downtime related to business-critical mobility. Comprised of seven unique and revolutionary components, the SOTI ONE Platform removes functional silos to create a single platform that helps to eliminate downtime, build apps faster and manage all mobile and IoT devices in one place.

HONEYWELL DEVICE MANAGEMENT

The SOTI ONE Platform makes it easy to manage your Honeywell Mobile Computers. It simplifies the security and management of multi-form factor and multi-operating devices in your multi-purpose mobility ecosystem - all through a single, easy-to-use interface. Experience the best of rapid deployment and provisioning, enterprise integration, remote support and application management.
