HONEYWELL SWIFT FIND

An Integrated Workflow Solution
for Today's Mobile Workers

Honeywell

INCREASE EFFICIENCY WITH AR SEARCH AND FIND SOFTWARE FOR MOBILE WORKERS

Step into a world of visual innovation with Honeywell's SwiftDecoder™ Software Development Kit.

Honeywell's SwiftDecoder™ Software Development Kit (SDK), a comprehensive solution for modern mobile workers. Transform your scanning applications with a pre-built, Augmented Reality (AR) search and find feature ("Swift Find") that elevates the efficiency of a device camera to create an extraordinary user experience. Integrating AR into your workflows can improve efficiency, boost productivity, and eliminate errors.

The Swift Find feature seamlessly integrates into larger workflows to perform a specific task. Swift Find will identify and locate an item. Once an item is found, Swift Find will easily scan the item using pre-built SDK integration.

BENEFITS

- Designed for effortless item discovery, optimized to identify an item instantly and precisely.
- Enhanced frontline worker and customer experience resulting from faster order processing, reduced manual searching, and shorter training time.
- Perfect for frontline workers who need to locate specific items that are amongst visually similar products or packages.

USE CASES

RETAIL	TRANSPORT & LOGISTICS	WAREHOUSE

REVOLUTIONIZING RETAIL SEARCH

- **In-store order picking** – Locate products on the shelf and reduce picking errors to improve customer satisfaction
- **Curbside delivery** – Make it easier for workers to find orders to expedite deliveries and keep customers happy
- **Self-scanning** – Simplify product search, highlight promotions and provide additional information for a better customer experience
- **Customer assistance** – Quickly find specific products on the shop floor, upon customer requests

RAPID ONBOARDING

- **Last mile delivery** – Save time by easily locating customers' parcels, in comparison to manual searches
- **Air travel** – Quickly identify baggage for rapid retrieval
- **Postal** – Ensure parcels are delivered to the correct collection points

WAREHOUSE EFFICIENCY REDEFINED

- **Dock door** – Eliminate the need for multiple scans by instantly locating the correct parcels, boxes and pallets
- **Picking and storing** – Quickly find the right place and right product

HEALTHCARE	FIELD SERVICES	MANUFACTURING

SIMPLIFY MEDICAL PROCESSES

- **Pharmacy** – Ensure the right medicines are found for safe dispensing to patients
- **Operating theatre** – Identify exact items required in theatre stores with speed, thereby eliminating pick errors and wasted product

FIELD-READY IDENTIFICATION

- **Parts identification** – Display information regarding availability and ordering of parts
- **Safety procedures** – Add information overlays with links to safety guidelines to maintain safety protocols

SHIPPING MADE SMARTER

- **Lot tracking** – Identify batches for shipping or recall, and help organize inventory

OPTIMIZATION AND INTEGRATION

SwiftDecoder's optimized algorithms, high-speed, and flexible decoding capabilities ensure efficient barcode recognition. Integration is easy, allowing developers to incorporate barcode scanning, OCR and AR functionalities, thereby facilitating a smooth implementation process.

With 50 years of scanning innovation, Honeywell is a global leader in the industry. The SwiftDecoder SDK leverages Honeywell's extensive experience and expertise in barcode technology, that offers robust functionality and dedicated support along with regular updates. We work to keep our technology current and remain aware of evolving trends, standards, and customer requirements.

COMPATIBLE WITH MAJOR OPERATING SYSTEMS

SwiftDecoder supports a wide range of camera-enabled devices including smartphones, tablets, PCs, payment terminals, drones, robotics, industrial and purpose-built devices. The SwiftDecoder solution is also compatible with major operating systems including iOS®, Android™, Windows® and Linux™, and wrappers like .NET MAUI®, Cordova™ and React Native™.

DOWNLOAD OUR DEMO APP

Turn your device into a powerful scanner today with our SwiftDecoder Demo App. You can test a wide range of scan modes that work across industries, including beyond barcode data and image capturing capabilities like optical character recognition (OCR), and ID scanning. Click the links below to download the demo app or search 'HONEYWELL BARCODE SCANNER' in your app store.
