

PSS Managed Mobility Services

EVERY DEVICE. EVERY WORKFLOW ONE PARTNER.

ONE MANAGED MOBILITY PARTNER TO DEPLOY, SUPPORT, SECURE, AND SCALE YOUR DEVICE ECOSYSTEM.

For more than twenty years, PSS Managed Mobility Services kept your frontline operations running, by managing, supporting, and optimizing every mobile device across your business without interruption. From barcode scanners and printers to tablets and wearables, PSS Managed Mobility Services ensures frontline teams remain productive, connected, and protected, regardless of environment or geography.

PSS Managed Mobility Services transforms multi-brand mobile device fleets from an operational risk into a predictable, high-performance business asset. By standardizing service delivery across diverse device ecosystems, PSS Managed Mobility Services gives organizations the confidence to scale operations while maintaining

control, security, and cost efficiency.

PSS Managed Mobility Services is a unique managed service platform that delivers worldwide consistency with local compliance. It drives higher device uptime, lower total cost of ownership, reduced operational risk, and faster issue resolution. Centralized reporting on fleet health provides actionable insight, enabling more intelligent decisions and stronger governance across the enterprise.

BUILT FOR MISSION- CRITICAL INDUSTRIES

PSS Managed Mobility Services is purpose-built for organizations that rely on mobile technology to run their core operations. Across industries, PSS Managed Mobility Services helps customers keep multi-brand device fleets running reliably, securely, and cost-effectively across multiple locations and countries, without operational disruption.

WHAT WE DELIVER

PSS Managed Mobility Services provides a complete lifecycle managed service for enterprise mobility. The result is higher device uptime, faster issue resolution, simplified vendor management, and lower total cost of ownership. IT teams reduce operational burden while frontline workers stay productive with reliable, ready-to-use devices every shift.

- Device procurement and provisioning
- Deployment and onboarding
- Support and repair
- Refresh and retirement
- Proactive Visibility and Control Across Devices, Apps and Networks

BUSINESS OUTCOMES

Through its global service model and operational maturity, PSS Managed Mobility Services delivers real business value:

- Operational continuity
- Higher device uptime
- Lower total cost of ownership (TCO)
- Improved frontline productivity
- Simplified IT & Operations management
- Scalable growth enablement
